

The proceedings are hereby administratively closed under *Matter of Avetyasian*, 25 I&N Dec. 688 (BIA 2012). Specifically, the respondent is the beneficiary of a pending _____ petition. As such, the respondent is similarly situated to the respondent in *Matter of Avetyasian* who was the beneficiary of a pending I-130. *Id.* at 689-690. At this point in time, the respondent cannot apply for adjustment of status. This form of relief will only become available to the respondent once the underlying petition is favorably adjudicated and, if applicable, a priority date becomes current. The duration of the administrative closure is fixed by events that will occur within the purview of agencies that are in no way connected to this Immigration Court. Thus, the Court is closing this case for administrative convenience since, at this point in time, an important form of relief from removal is not ripe for adjudication.
